

Student Money Advice Awards

INNOVATIVE PROJECT

At NASMA we know our members think outside the box in order to provide high quality, student-focused service excellence. This award will be made to the individual, team or group that has shown the greatest innovation with the intention of improving the support for their students and/or colleagues in the student money advice sector.

We are looking for nominations that demonstrate proactive and unique approaches to a project. The focus of the project can be in any area, such as working with vulnerable student groups, developing partnerships and collaborative working with internal or external organisation, development of proactive financial wellbeing activity, etc.

The winning project will be an example of best practice that showcases the innovative thinking within our membership.

In the case of team nominations, at least one member of that operational team must be registered as a NASMA member in the current membership year. We appreciate that some partnership projects may involve teams/services who are not eligible to be NASMA members, and that is okay as long as at least one contributor to the project is a NASMA member.

If you are not sure whether an individual or team are NASMA members, contact the NASMA Office via office@nasma.org.uk
